

April 23th, 2025

読谷村長 石嶺 傳實

Notice regarding lifting of drinking water restrictions

We have received the water quality results of the Water Supply Act, PFOS and PFOA, from the testing agency.

Based on the results, we have determined that the water is safe and reliable for use as tap water (drinking water), and therefore will be lifting the restrictions on drinking the tap water as of 1:00 p.m. today.

We would like to apologize to the local community for the inconvenience caused between April 15th and April 23rd, and would like to thank you for your understanding and cooperation.

The two emergency water stations will also be closed on the same day, In addition, applicable households will be exempt from paying water charges (basic charge).
